

## Layout

## Auto transferring system

## Typical Products

## Basic Data

A	MIN - MAX 100 MM - 400 MM
H	MIN - MAX 100 MM - 400MM
L	MIN - MAX 200 MM - 1000 MM
Remark : The model related to capacity dimension can be selected by discussion	

## General Machine Specs

- Floor Space Req.
- Weight
- Power Req.
- Oil Cap.
- Operating Temp
- Cooling method
- Max no. tools
- Machine cycle time
- Cross section changeover time
- Length changeover time
- Max material thickness
- Type of head beads available

## Process Features

- Horizontal Machine Loading/Unloading
  - Under shuttle attached
- Flanging side tool unit
  - Muffler length adjustable for each model by servo
  - Tooling quick changeover type
