

PQ 000 – M/H/S – S/E – 000 – S/A – C2/(C3)/(CK3)/S1/S2/(S3)/EP/(P2)/(FC2) – 00x00 – xxxxxx

PH 000 – M/H/S – S/E – 000 – S/A – B1/B2/(B3)/C2/S1/S2/EP/(P2) – 00x00 – xxxxxx

1 2 3 4 5 6 7 8 9

1. Series name	PQ: Power Quadro, PH: Power Hollow
2. Model Number	Rated output torque (approximately 10 Nm)
3. Ratio Group	M: Medium, H: High, S: Super
4. Output Bearing Type	S: Standard, E: Enhanced
5. Reduction Ratio	
6. Material	S: Steel (standard), A: Aluminium (on request)
7. Input Style (See next page for pictures)	<p>C2: Easy-to-use clamp input with large input diameter and sealing</p> <p>S1: Flange input with sealing</p> <p>S2: Input shaft with sealing</p> <p>EP: Pancake style, right angle, combine with planetary gear at input for ratios higher than 1000</p> <p>C3, CK3, S3: For turning the main frame</p> <p>FC2 and FS2: Optional for PQ Series</p> <p>B1: Sealed, hollow, direct connecting input structure without hollow tube, hollow shaft turned by input speed</p> <p>B2: Sealed, hollow, direct connecting input structure with hollow tube, hollow tube turned by output speed;</p> <p>B3: Optional for PH Series</p>
8. Insertable input shaft diameter X Applied motor shaft diameter	Leave blank for S1, S2, S3, FS2 styles
9. PQ or PH motor code	Leave blank for S1, S2, S3, FS2 styles
